## OSF Potato Project

Can you help us with our Citizen Scientist type project? As you know we are big fans of growing potatoes! The aim of the OSF Potato Project is to:

- Record all of the different varieties growing here in the NE of Scotland
- Create a map showing this
- Establish which varieties grow best in our local area

For more information about how you can help, view a copy of our [Potato Project Flyer](#)

## Funding

As you know we are a community growing initiative run by volunteers and we are able to continue with the support of people like you.

We are currently a local cause of the Co-Op, so if you shop there could you add us as your local cause and, if you don't, would you consider joining their membership scheme? There are lots of offers that you get and you would be helping us out as 1% of your spend goes to causes such as ours.

**Cause ID: 60352**

We would also like to thank the folk who have donated seeds to us this season for our giveaways. These have been from all over the UK and your generosity is very much appreciated.

## Our Community Allotment

If you would like to do some growing and learn techniques for growing with One Seed Forward then you are welcome to come along to the community allotment plot at Nellfield Place, Aberdeen. Just get in touch and we can arrange a convenient time to visit. We are also developing an education space at Grove Nursery in Aberdeen and hope to have some exciting news about this in the next few weeks.

*We would like to thank all of our wonderful volunteers for all your help with projects this year.*

*Our volunteer list is growing too but there is always room for more, so if you would like to be involved in our community growing initiative, send us an email to [oneseedforward@gmail.com](mailto:oneseedforward@gmail.com)*

Happy growing!
